

# Feed a Bee Pollinator Mix

FeedABee.com

If you are interested in establishing a large plot (minimum of 1 acre) of pollinator forage we can help. Feed a Bee has partnered with two outstanding seed companies to provide general pollinator mixes that will grow in most regions of the United States. Blends are loosely based on Eastern and Western geographies of the United States, but may be applicable in other regions based on personal needs, climate conditions, etc.

Information below is provided to aid in the decision. The requester is responsible for all payments and initiating the order by contacting the appropriate company at the information list below.
